Prime Learning Challenge: How does bread change?

Key language

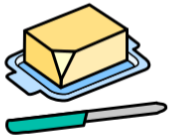

bread

toaster

toast

butter

jam

honey

It tastes like...

Key facts: bread

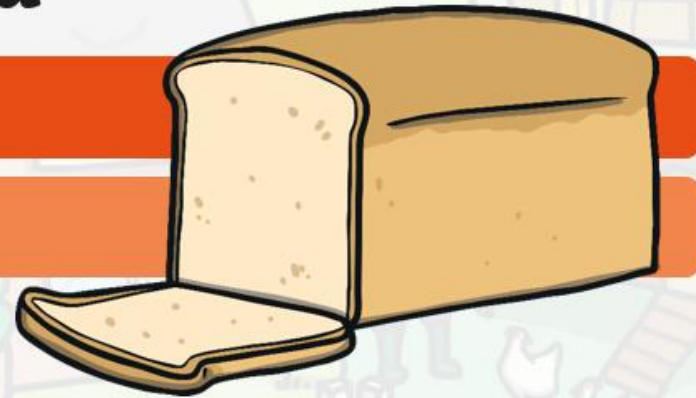

There are lots of different types of bread, including:

- *white bread*
- *brown bread*
- *chapatti*
- *pitta bread*
- *baguette*
- *naan bread*

Bread

Where does **bread** come from?

Bread is made from wheat.

Farmers grow wheat in their fields. In the summer, they harvest the wheat using a combine harvester. The farmers mill the grain by grinding it between two stones. This then makes flour. Flour is the main ingredient in bread.

**Fun
Fact!**

To make bread, you also need water, yeast and salt.
